

Photovoltaic panel maintenance and cleaning company

What services does a solar panel cleaning service offer?

We offer, solar farm cleaning, vegetation control and drone imaging services. A one stop approach for all of your needs. Our commercial and industrial solar panel cleaning services cover all solar installation types, including large rooftops, ground mounts, carports and PV glass. Clean solar modules produce more and last longer.

Does Sun service specialists clean solar panels?

Sun Service Specialists DOES NOT use cleaning materials that are hazardous to panel health. Because solar panels have no moving parts, there is very little maintenance -- but solar panel cleaning should be a priority for system owners, as soiling and dirt on your array can definitely lead to lost energy production.

Does professional solar panel cleaning increase energy production?

Researchers at Google's solar panel farm found that energy production doubled after professional cleaning. And after a second cleaning, they found that the energy production had gone up by 36%. At Shine, we are experts in professional solar panel cleaning and promise the best, safest, and most effective way to clean panels.

Does Shine clean solar panels?

Shine's Professional Solar Panel Cleaning Team will evaluate your panels and create the best plan to preserve the longevity of your solar panels. Interested in A Better SHINE on Your Solar Panels?

Do solar panels need to be cleaned?

Using the correct cleaning products, water pressure, angle of spray, and even towels can impact the life and quality of your solar panels. Trusting the experts at Shine will guarantee maximum sunlight exposure and an extended life for your solar panels. How often should I get my Solar Panels Cleaned?
