

What is the SNEC organizing committee?

The SNEC Organizing Committee are keen to work together with all industry players to achieve green recovery in a post COVID-19 era, with an aim to strengthen collaborative innovation and investment among the solar power, hydrogen, and energy storage technologies in China and around the world.

What is energy storage & hydrogen Conference?

As one of the most influential and largest energy storage and hydrogen conferences in the world, the exhibition covers an area of over 70,000 square meters. It brings together more than 600 core energy storage and hydrogen companies from all over the country and is expected to attract over 150,000 visitors. Schedule Conference

What is SNEC 7th 2024?

It is co-located with the SNEC 7th (2024) International Hydrogen and Fuel Cell Technology, Equipment and Application Conference & Exhibition. The pledge of achieving "Carbon Neutrality" will accelerate the leap forward development of renewable energy and put forward higher requirements for energy storage.

How many people will attend the energy storage & hydrogen Conference 2023?

It brings together more than 600 core energy storage and hydrogen companies from all over the country and is expected to attract over 150,000 visitors. Schedule Conference Date: October 31-November 2, 2023

What are the different types of energy storage technologies?

Energy storage technologies are developing rapidly, including lithium-ion batteries, sodium-ion batteries, flow batteries, compressed air energy storage, pumped storage hydroelectricity, flywheel energy storage, and gravity energy storage.
