Shop BLUETTI Premium Series 864Wh 1000-Watts Portable Power Station (1 Solar Panel Included) in the Portable Power Stations department at Lowe's.com. Introducing the BLUETTI AC70P, your perfect and reliable outdoor companion.

What makes a good solar power station?

One of the most important aspects of any solar power station is how well it can interface and charge from various types of solar panels. In some cases, a solar power station might not be able to accept different types of solar panels or may be locked to its own brand's solar panels through a proprietary connection.

How do you charge a portable solar power system?

Other people use them to power speakers while tailgating, or integrate them into van build projects. Most portable solar power systems -- aka solar generators, power stations, portable power banks or battery boxes -- can be charged via solar panels, a wall plug or a 12-volt car outlet.

Can a solar power station charge a phone?

Some solar power stations can actually be charged with both solar and wall outlets, which obviously gives you some really fast charging. Most people who are looking for a solar power station don't want something that will just charge their phone once in a while and can, therefore, just grab a power bank.
