

Wind power generation operator stocks

Are wind stocks a good investment?

Wind stocks benefit from many of the advantages wind energy has over other types of energy sources. Wind energy is a rapidly growing area of the alternative energy industry, and accounted for more than 10% of U.S. energy production in 2022.

Is Northland Power a good wind energy stock?

Northland Power also trades over-the-counter (OTC) in the U.S. under the ticker NPIFF. These are the top wind energy stocks as ranked by a growth model that scores companies based on a 50/50 weighting of their most recent quarterly YOY percentage revenue growth and their most recent quarterly YOY earnings-per-share (EPS) growth.

How many wind energy stocks does ETF hold?

As of mid-2024, it held more than 55 wind energy stocks. Of note, its top 10 holdings included Vestas Wind Systems, Siemens Energy, and NextEra Energy. The ETF has a heavy concentration of foreign-listed wind energy stocks; Denmark-listed wind stocks made up the largest country share of its portfolio, at almost 17%.

Is GE a wind stock?

While those revenue numbers are larger than the entire operations of a few stocks on this list and the stock is incredibly liquid and widely held, the reality is that wind is not a significant driver of GE's success as a corporate entity. In other words, while stocks like GE may be more prominent or easy to trade, they are not truly "wind stocks."

Will a new EU plan boost Wind Stocks & Green Energy Investments?

The European Union's new plan to accelerate renewables deployment by 20% boosts the outlook for wind stocks and other green energy investments, according to BofA Securities strategists.

What is a wind energy ETF & how does it work?

The ETF invests in pure-play wind companies that get at least 50% of their revenue from wind-related activities (60% of the fund) and diversified companies involved in some aspect of the wind energy industry (40% of the fund). As of mid-2024, it held more than 55 wind energy stocks.
